

G20-1

Road Work Next XX Miles

**CATEGORY**

Guide Signs

SHAPE

Rectangle (Horizontal)

COLOR

Orange background, black legend

TYPICAL CA MINIMUM SIZE

48" x 24"

COMMON TCP PLACEMENT

Beginning of the work zone (advance/upstream)

CA MUTCD REFERENCE

CA MUTCD Part 6, Chapter 6F (Temporary Traffic Control)

FIELD USE NOTES

Informs drivers of the total length of a work zone, telling them how many miles of road work to expect ahead. In the field, G20-1 Road Work Next XX Miles is typically positioned at the beginning of the work zone (advance/upstream). Common deployments include beginning of long-duration or corridor work zones; highway and expressway projects spanning miles; paired with END ROAD WORK at the downstream end. Always confirm its size, retroreflective sheeting, spacing, and placement against the CA MUTCD 2026 and the reviewing agency before finalizing the traffic control plan.
