COLOR
White background, black legend and arrow

TYPICAL CA MINIMUM SIZE
Per CA MUTCD minimum for the roadway type

COMMON TCP PLACEMENT
Advance warning area, ahead of the work

CA MUTCD REFERENCE
CA MUTCD Part 2B (Regulatory Signs)

FIELD USE NOTES

Requires drivers to keep to the right side of a divider, obstruction, or channelizing island — passing on the right-hand side of the device. In the field, R3-7a Keep Right is typically positioned at the advance warning area, ahead of the work. Common deployments include nose of a channelizing island or concrete barrier segment; temporary crossovers and median openings; lane splits and diversions around work activity. Always confirm its size, retroreflective sheeting, spacing, and placement against the CA MUTCD 2026 and the reviewing agency before finalizing the traffic control plan.
