Red background, white legend

TYPICAL CA MINIMUM SIZE
36" x 36"

COMMON TCP PLACEMENT
Point of regulation within the activity area

CA MUTCD REFERENCE
CA MUTCD Part 2B (Regulatory Signs)

FIELD USE NOTES

Prohibits entry into a roadway or lane, telling drivers they must not proceed past the sign in that direction. In the field, R5-1 Do Not Enter is typically positioned at the point of regulation within the activity area. Common deployments include preventing entry into closed lanes or ramps; reinforcing one-way operations through a work zone; used with WRONG WAY where wrong-way risk exists. Always confirm its size, retroreflective sheeting, spacing, and placement against the CA MUTCD 2026 and the reviewing agency before finalizing the traffic control plan.
