FIELD USE NOTES

Tells pedestrians that the sidewalk is closed and directs them to use the sidewalk on the opposite side of the street. In the field, R9-10 Sidewalk Closed Use Other Side is typically positioned at the at and in advance of the pedestrian/sidewalk closure. Common deployments include shifting pedestrians to the opposite sidewalk; used with crosswalk and cross-here signing; maintaining a continuous accessible route. Always confirm its size, retroreflective sheeting, spacing, and placement against the CA MUTCD 2026 and the reviewing agency before finalizing the traffic control plan.
