FIELD USE NOTES

Marks the point where pedestrians should cross because the sidewalk is closed, directing them to the open side at the crossing. In the field, R9-11a Sidewalk Closed Cross Here is typically positioned at the at and in advance of the pedestrian/sidewalk closure. Common deployments include marking the crossing point at a sidewalk closure; pairs with the ahead version upstream; maintaining an accessible crossing. Always confirm its size, retroreflective sheeting, spacing, and placement against the CA MUTCD 2026 and the reviewing agency before finalizing the traffic control plan.
